

Lean Six Sigma Tutor/Continuous Improvement

Job Title – Lean Six Sigma Tutor/Continuous Improvement tutor

Location – Home Based

Salary – £30K+

Terms – Permanent/PT/Flexible working considered

RHG Consult specialises in the professional delivery of a wide variety of training and apprenticeships nationally.

We are looking for a Lean Six Sigma Tutor/Continuous Improvement tutor to join our growing team. We require an individual who has knowledge, experience and qualifications within the Lean Six Sigma environment/Continuous Improvement environment to join us in this exciting role. You will work with learners and employers to ensure delivery of outstanding teaching, learning and assessment to support apprentices working towards their Improvement Technician/Practitioner and Specialist Apprenticeship Standards, and supporting the commercial delivery of our Lean Six Sigma Yellow/Green/Black Belt qualifications.

You will be responsible for:

- Delivering virtual/remote training (1 to 1 and groups) as and when required and evaluate the effectiveness of the training across a variety of industry sectors
- Motivating learners and providing regular support and guidance
- Assisting learners in completing their Lean Six Sigma projects and providing your technical expertise to maximise the effectiveness of their projects and improvement programmes
- Carrying out regular progress reviews and complete all required administration by agreed timescales
- Managing retention and achievement of learners allocated to your caseload
- Assisting in the development of learning resources

As a Lean Six Sigma/Continuous Improvement tutor you will have the following skills and experience:

- Continuous improvement/Service improvement qualification
- Lean Six Sigma Green or Black Belt qualification (or working towards)
- Have experience in a Lean Six Sigma or Continuous Improvement role
- Keen to impart your experience and have credibility within this field
- A leadership/management/project management qualification is desirable but not essential
- An assessor and/or teaching (education and training) qualification would be ideal, however we will provide training for those without the qualification.
- Be diligent, organised and have exceptional attention to detail

You may have experience of the following: Continuous improvement, Lean Six Sigma, project management, management,
